16 HORSES for SALE

CHESTER

Livery & Exchange Stables,

THE IRON ERA.

SATURDAY, Jan. 27, 1872.

LOCAL DEPARTMENT.

Hon. Aug. W. Cutler will please accept our thanks for numerous State documents.

Last Monday the first train was run over the new Midland road to New Foundland. It is expected that the train will run regularly in two weeks or when the road is properly graded.

Rev. B. T. Roberts, general Superintendent of the Free Methodist Conference will preach in Prospect St. Hall to-morrow morning at 10 o'clock, and at 2 and 7 o'clock P. M. Meetings will continue during the week.

A singular piece of extravagance was recently developed by putting up in the Court room of the Court House at Morris town a splendid chandelier costing \$200. What a useless expenditure in view of the early removal of the County Seat to this city!

The friends of the Rev. Isaac Thomas will make him a Donation Visit in the new Hall at Port Oram on Saturday evening, Feb. 3d. The "Sweet Singers" in connection with the Temperance Cornet Band will discourse music on the occasion. A cordial invitation is extended to all.

The funeral services of Mr. Hudson Gillen will be held in the Mill Brook M. E. Church on Wednesday morning, Jan. 31st, at half-past ten o'clock. Deceased was a member of Teedyoness Tribe No. 17, I. O. O. F., and of Victory Council No. 12, O. U. A. M. Members of the above Orders in Dover and all friends of the family are invited to attend.

The Dover Cornet Band, on Wednesday of last week visited the village of Chester and exhibited their superiority as a Band to the residents of that place. An evening was spent in mirth and enjoyment, and the members returned highly pleased with the hospitality of the good people of Chester. To Mr. Samuel George they are under many and great obligations for his anticipation of their wants and his kindness to them during their stay. It is said "our drummer boy"—not the "mean" one—was the recipient of many compliments for his wonderful proficiency in handling the sticks, and that he preferred to waive his claim to the couch provided for him in favor of some of his soldier comrades. How is that?

Now that we are all to become temperance men and women, how wise to prepare for such an emergency. Geo. W. Kennedy, opposite the Mansion House, has just received a large number of the celebrated Monitor Coffee Pots, just introduced into this section of country for the first time by Mr. Robert Tupper, an old friend of ours. We can recognize this Pot as holding aloof altogether from the old black kettle of conventional notoriety, and assert that coffee made by this simple process is far superior to any made in the old way. We wish you to try one, and then return us your sincere thanks for the suggestion.

The Fair conducted by the ladies of St. Mary's Catholic Church, during the holidays, produced a net profit of \$1,072.23.

Two Total Abstinence Societies, one for men and the other for boys have just been organized by the Pastor of St. Mary's Catholic Church on the beneficiary system. These societies, it is to be hoped will do much good in reclaiming drunkards and dispensing aid to sick and needy members. It is contemplated at an early day to join these societies with the New Jersey State Union of Catholic Temperance Societies, the President of which is Mr. J. W. O'Brien, of Jersey City.

The following is a copy of the "Local Option" petition now being circulated in this township:

PETITION.
We, the undersigned, legal voters of the Township of Randolph and County of Morris, respectfully petition your Honorable Body to enact a law to enable the voters of said Township to control the licensing of liquor and sale of spirituous or malt liquors within the limits of said Township by providing, that on and after the day of the next Annual Town Meeting in said Township, it shall be unlawful for any person or persons to sell, or offer to sell, spirituous or malt liquors, ale, beer, or porter, to be used as a beverage, except at a licensed inn; and at every regular Annual Town Meeting, the question, whether application shall be made to the Court for license for an inn or tavern to sell spirituous or malt liquors, ale, beer, or porter, to be used as a beverage, shall be submitted to the vote; and no license shall be granted to any person or persons for that purpose, unless a majority of the vote cast shall be in favor of the same.

The debt of Morris town is \$23,000; with \$2,000 to be expended for house for the department it will reach \$25,000. There has been expended by the Common Council since the incorporation of the town the large amount of \$68,063.00. The sum of \$13,869 was expended for improvements last year, and is over and above the debt at \$25,000. This with the thousands of dollars paid by citizens for lighting, individual improvements and assessments make up quite a handsome sum. For Morris town can afford it, and she is supporting a lovely dimple on the face of our noble State. Her citizens are now discussing the project of dissolving all connection with the township. It is proposed to take the city limits as they are and leave the rest of the township to take care of itself. Another plan is to set the narrow belt of the township around the city off into adjoining townships, thus compelling the voters of those parts to go six or seven miles to the polls. The sum of \$10,000 per annum is allowed to be raised by direct tax for the current expenses of the city government.

It is said that business will be very brisk in Morris town next Spring. The Montclair and Mendham Railroad will be in process of construction, and it is thought that extensive car works will be built on the meadow used by base ball

players, between the river and the present railroad track. The old citizens of Morris town favor the introduction of many factories but there is a certain class who oppose everything of the kind, consequently it is doubtful whether car shops will be allowed upon the soil. Several years ago the same property mentioned above was being negotiated for by capitalists who proposed to erect thereon large buildings for manufacturing purposes when certain parties, desirous that Morris town should become a sort of "preserve," stepped in and bought it. A bridge was built shortly afterward to connect the property directly with Spring street, and it was proposed to remove "Dublin" from the opposite side of the town to this place, but since the death of a prominent citizen of the town nothing has been done in that direction.

A meeting of the Commissioners of the new Lunatic Asylum, to be erected at Morris Plains, met in New York on Friday last for the purpose of consulting with the architect and experts upon the plans. The work at the grounds is now progressing at a good rate. The quarry has been examined by experts, and it is reported to be inexhaustible and to possess the finest stone. A sand pit for mortar purposes is also on the property. The quarry is so situated that the cars laden with the huge blocks as cut and shaped at the quarry can run by their own gravity down to the site of the building, and preparations are now being made to commence work. An enormous quantity of brick will be required, and it is the intention of the Commissioners to offer to the Morris county people every inducement to burn the brick in the neighborhood, and bring it to the building. The clay of some parts near Morris town is unsurpassed for making bricks. Inducements will also be held out to the neighborhood to furnish other building material, and afterwards provisions, vegetables, &c.

The report of the Commissioners has been presented to the Governor, stating that they have examined 42 sites offered to them in the northern counties, and on June 20th they selected the present site on Morris Plains, near the D. L. and W. R. R., paying for 251 acres purchased of Hon. Geo. Vail the sum of \$48,324.61; for 5 acres purchased of Jesse Pierson, \$2,930; for 6 acres purchased of Mrs. M. A. Todd, \$1,224; for 22 acres purchased of L. O. Stiles, \$3,000; for 25 acres purchased of J. L. Canfield and Francis W. Bloodgood, \$2,500; and 15 acres purchased of Lewis Benjamin, for 9,000. The whole amounting to 335 and 85-100 acres at a cost of \$66,048.61. To this another tract of 80 acres it is thought should be added so as to complete the purchase of the whole block of land. They state that they have purchased more land than was ordered by the law, but this was deemed advisable in order to secure the quarry, sand pit, spring of water or right of way to either of these, and they suggest that if found to be superfluous the balance of land can be resold at a good advance.

It is believed that large quantities of phreatic water hidden in the ground within a mile of Morris town, on the Mendham road, and the discoveries upon the lands of Mr. Betts will probably induce that gentleman to make more extended searches for the article. He has already made such developments as will doubtless lead him on to more expensive workings in that direction.

Morris town may yet become a mining centre of considerable importance. *Quinn sub.*

FROM PORT MORRIS.

Port Morris is growing. In addition to Messinger & King's hotel, Rankins Brown has built a fine house, where he is at present keeping boarders and beer.

Mr. Brown is, I believe, literally the "oldest inhabitant" of Port Morris. The property of Wm. Grindler was sold to Patrick Clark, of Drakeville, for eight hundred and fifty dollars.

I understand Mr. Clark proposes to keep boarders and beer also.

Surely the laboring man of America has no lack of temptation nor opportunity to make drunkards of themselves. It matters little where a man starts a beer saloon, now-a-days, he is sure to make money; he has no difficulty in obtaining the names of "good and true men" enough to testify to the necessity—the great necessity—that exists that he should have a license, and the Court grants it, or Uncle Sam's representative gives one for a certain stipulated sum.

A certain man in Stanhope owed a certain saloon keeper one dollar last week, and on paying the bill he received a receipt. He went to his boarding-house at midnight or thereabouts, kicked in the lower panels of the door trying to get in, and when he got over the effects of the receipt he got, next morning, he found he was out about five dollars besides the damage done to the door which he will have to pay.

Now I am not a temperance man as the word is understood now-a-days, yet for the sake of the boys who will take our places in this busy world when grim Death shall call us to a better, or a worse, I should be right thankful if there were fewer places where this "terrible temptation" is set before them. I know that the sons of some of our best men, whose names I could give, have been picked up out of the gutter and carried home badly drunk. I know that men have been killed on the railroad, and in less dangerous places, because they were fools enough to get drunk, and I know, too, that directly after these things a great hue and cry was raised against the men who sold the liquor, but did that boy's father ask himself what kind of home influences surrounded his boy? Did he pay more attention to the accumulation of money than to his son's education? You may exact local opinion laws and they are good so far as they go. But if you would make sober men for the

future you must begin at home—begin at the cradle—but be sure that your children do not inherit a taste for whisky, which nothing but a father's best example, perhaps, will cure them of.

If Judge Dairmple has any regard for the lives and limbs of what it is the fashion to style the "laboring classes," he will think twice before he grants any more licenses to Port Morris or Stanhope.

The railroad company is building a large boarding-house for the accommodation of employees at this place.

An iron mine has been discovered at Shippenport—a seven-foot vein and good ore. It is only a short distance from the railroad and still nearer the canal. The owner is tunnelling into it now and intends to develop it. D. J.

Morris County Courts.

The court has been occupied since our last issue, in the trial of the case of Samuel Jones vs. the Mechanics' Fire Insurance Company. The case excited more interest than any case that has been tried at this Court in a long time. The court room was filled with the best citizens of the town, who watched the proceedings very attentively. Mr. Jones, at the close of his testimony, was subjected to a long and tedious cross-examination by the counsel of defendants, the defense regarding that defendant's testimony as vital. Mr. Jones was corroborated in his evidence by clerks of his and other persons. The substance of the testimony on behalf of plaintiff was, that he had a stock of goods—groceries and liquors—amounting to \$10,000, which were consumed by fire on the 2d of March, 1871, on which there was an insurance of \$28,000. The defendant being responsible for \$4,200 of that amount.

The plaintiff offered in evidence an inventory of his stock, made in the month of April, 1871, and offered evidence of the amount of his purchases from the time of the inventory to the date of the fire, and from the gross amount deducted the amount of his sales, showing, as he claimed, that he had about \$46,000 on hand at the time of the fire.

When the plaintiff rested, Mr. Hoxey moved the court for a non-suit. The motion was based on the ground that the plaintiff had not required with the conditions of his insurance policy, in giving to the company notice of his loss. The defense contended that defendant's notice had not been given; the policy requiring the plaintiff to give as particular an account of the loss and damage as the nature of the case would admit. The plaintiff had attempted a compliance therewith.

The motion was argued at great length by counsel on both sides, and on Friday evening the court adjourned until Monday morning, with the motion still pending. Monday morning Mr. Courtland Parker closed the argument on behalf of the defendants.

The Court held that the motion for non-suit must be denied, and instructed very strongly that Mr. Jones had strictly complied with the terms of his policy. The defendants took an exception to the refusal of the court to non-suit.

Mr. Hoxey then opened the case to the jury in behalf of defendants. His address was able, and pleasingly delivered, and was attentively listened to by a large audience.

The basis of the defense's fraud on the part of Mr. Jones—the ground on which the motion claim is fraudulent. They produced as their principal witness, Mr. James V. Bentley, formerly deputy, and now Collector of Internal Revenue. In November, 1869, Mr. Jones' place was seized by the U. S. authorities for an alleged violation of the revenue laws. At that time Mr. Bentley made an inventory of Mr. Jones' stock which differed largely in amount from that made shortly after by Mr. Jones—it being much smaller.

This inventory was put in evidence by the defendants, who after calling two or three other witnesses on less important points rested their case. The plaintiff then commenced his rebuttal testimony. The only witness called in rebuttal up to Tuesday evening was Mr. Geo. Starkweather, of New York city. The case was adjourned from Tuesday evening to Thursday morning to allow Mr. Parker to meet an important previous business engagement. The case was resumed this morning and is still on as we go to press.

On Wednesday the case of Morris vs. Hoppough and Moor was tried. It was an action for work and labor; the defendants insisting that the work was so poorly performed as to be utterly worthless.

The charge to the jury was delivered this morning. The verdict was for the plaintiff for the full amount demanded, \$514.85. G. T. Ward, plaintiff, Vinney & Youngblood for defendants.

The Grand Jury returned into court Monday afternoon and presented fifteen bills of indictment. There being no other business before them they were discharged with the thanks of the Court.

The following defendants have been arraigned and pleaded respectively as follows:

State vs. Nelson Jackson—indictment for assault and battery. Plea, not guilty.

State vs. James Keefe—indictment for keeping disorderly house. Plea, not guilty.

State vs. same—indictment for selling liquor on Sunday. Plea, not guilty.

State vs. Frank Smith—indictment for keeping disorderly house at Abington. This was an indictment found at May Term. Plea, guilty.

State vs. Francis Smith—indictment for selling beer on Sunday. Plea, guilty.

State vs. Patrick Dolan—indictment for breaking and stealing. Plea, guilty as to entering and stealing.

State vs. William Grindler—indictment for murder. This is the Port Morris murder case. Plea, not guilty.

State vs. Elizabeth Johnson—indictment for assault and battery with intent to kill. Plea, not guilty. This is the woman who was indicted for murder at the time of the killing at Port Morris.

State vs. August Noward—indictment for assault and battery, found at October Term, 1871. Plea, not guilty.

State vs. John W. Martin—indictment for rape. Plea, not guilty.

State vs. John Medland—indictment for assault and battery. Plea, not guilty.

State vs. Thomas VanOrsdel, David Lash, David VanOrsdel, Julius Cohen—indictment for riot. All of the defendants plead not guilty.

State vs. James Goldsworthy, John Williams, John Moon—indictment for assault and battery. Plea, not guilty by all defendants.

State vs. Edward Smith, indictment for keeping disorderly house. Plea, not guilty.

State vs. Benjamin Shuman—indictment for keeping disorderly house. Plea, guilty. Fined \$50 and costs.

A correspondent of the N. Y. Tribune speaking of the Legislature of New Jersey says:

A bill contemplating a general railroad law for the State of New Jersey will be introduced some time during the present session. It will provide that capitalists shall have to select their own corporations, and build roads wherever they choose, with the right to condemn lands as at present. They will be required to pay a certain percentage of the capital invested to the State, which will be refunded in case the road is completed within a certain number of years, but if at the end of that time the work is not done, the State will retain the money. The bill provides also for the appointment by the State of three Commissioners whose duty it shall be to look after all the roads in the State, and see that no unjust monopolies are permitted to monopolize certain routes.

The bill we understand has been prepared by Senator Outer of this county, and will find in him, we think a warm and zealous advocate, and in Hascousen he will have the sympathies of the people.

MICHIGAN FLOUR.

AT WHOLESALE—

DIRECT FROM THE MILLS IN MICHIGAN,

Different Grades at Different Prices.

Sold as Cheap as at the New York Wholesale Houses,

BY THE Barrel or Car Load.

This flour is from the most celebrated mills in Michigan, is always kept on hand fresh ground, and the quality always as represented. The most superior brands as well as the lowest brands can be had.

I deal with the manufacturers at their Mills, and not with New York houses. The Flour comes direct to my warehouse without going to New York, and is consequently had at first prices.

Merchants and others throughout this section of country will find it to their advantage to deal with me, as I can assure them a better article of the above brand of flour, at less expense than they can procure it in New York.

CHESTER HOUSE,
CHESTER, N. J.

T. P. Skellenger, Prop'r
The subscriber respectfully announces to his
friends and the public generally, that he has very
much enlarged and greatly improved what was
known as the
"INSTITUTE BUILDING,"
and is now prepared to receive visitors.
The accommodations for summer boarders is
the most ample of any other establishment in the
county. It is situated upon the most elevated
ground in Morris county, and consequently on a
place of superior health for health is unequalled in
this section of country.
Excellent stables are attached to the premises
and fireless turn-outs are kept for hire.
Chester, N. J., 21. 5-1

2,000 Acres
OF THE
Most Valuable Mineral Prop-
erty in Morris County
FOR LEASE!
This large tract is situated within ten miles
north-west of Dover. It consists mostly of wood-
land, and is very rich in mineral, iron ore, being
constantly raised on the original tract, adjoining
this, at the present time. This property is so
well known that a description of it, with its fine
railroad facilities, &c., is unnecessary here.
Adjoining the above property is
A FINE DAIRY FARM,
Containing 300 Acres, and which will be sold in
connection with the above, or not, to suit pur-
chasers. On it are six Dwelling Houses, with
barns and outbuildings, a Forge and Anchor Shop,
with ore, coal and stone houses and other neces-
sary outbuildings for the proper conduct of the
business.
Thirty Cows will be sold with this dairy prop-
erty if desired.
This is a most valuable property, and well or
thly the attention of capitalists.
ALBERT N. TROTT,
Bellefonte, Morris Co., N. J.
Dated Jan. 7, 1871.

M. & I. Searing,
CARPENTERS,
and BUILDERS,

GO TO
Kennedy's Cash Store
For lowest prices in
DRY GOOD,
GROCERIES
AND PROVISIONS,
BOOTS AND SHOES,
TRUNK AND V A ISES,
Musical Instruments,
GUNS, PISTOLS, ETC.
GREAT EXHIBITION.
At Kennedy's all of 1st class
The genuine
ELIAS HOWE
SEWING MACHINE,
The oldest and
THE BEST IN THE WOR D.
Has been twenty years with the Sewing Ma-
chine, and will outwear any machine that is
perpetrated by a cog movement, and certainly much
easier kept in order. Also, the celebrated
AMERICAN
SEWING MACHINE,
Fast growing in public favor.
Machines for sale or rent on easy terms.
Also, a full line of Sewing Machine fixtures,
needles, etc.—don't waste your money on cheap
half-way machines, buy nothing but standard
machines.
GEO. W. KENNEDY.
"Let facts be submitted to a can-
did world."
A Sewing Machine that is a machine,
So perfect, so noiseless, and neat,
That all who see it cry out in their joy,
Here is something that cannot be beat.
A Sewing Machine that is a machine,
Doing all that others can't do,
Besides overcoming two edges to gather
in a way that's entirely new.
A Sewing Machine that is a machine,
Converting dull work into play,
Not even the difficult Button Hole left
To be worked in the tedious old way.
A Sewing Machine that is a machine,
Embroidering the edges so nice,
Hereafter the hands have nothing to do
As the feet can work the device.
These celebrated Machines can be seen at my
Store and I claim them to be the simplest, light-
est running and most noiseless lock stitch ma-
chine ever brought to my notice. They are cer-
tainly the Ladies' friend—call and examine the-
fore purchasing elsewhere and be convinced that
it's just what it's claimed to be.
GEO. W. KENNEDY.

season. 13-17

Seven Reasons Why
GLASS
FOR HORSES.
WILL CURE RINGBONE, SWEENEY, SPAVIN,
TENDER FEET, FOUNDER, STIFF JOINTS,
STRAINS, GALLS, BRUISES, AND LAM-
BNESS OF ALL KINDS.
FIRST.—It is composed of the most powerful
and vegetable liquids known in chemistry.
SECOND.—Combined with the glass is a Me-
dical Oil, made expressly for this Liniment,
and mixed by an entirely new process.
THIRD.—The use of the powerful and penet-
rating liniment is to break up the inflamed
tissue, and induce a healthy action in the
muscles and joints, thereby curing the dis-
ease and enabling it to lose its chronic and pe-
nious taint.
FOURTH.—This Medical Oil is used for the
same reason, and a most valuable remedy
to make the machinery work with ease and pre-
cision. It is the same as the muscles and joints
of our animals should be lubricated if we wish
to have them travel with rapidity and ease.
FIFTH.—It is every thing in its action, will
not burn or blister or irritate like most of the
"red hot" liniments of the day.
SIXTH.—Not one drop of liniment of cayenne
or red pepper can be found in its composition;
for we want that the liniment can be applied to
burn and blister the animal until the muscles
are hard and dried almost to a crisp.
SEVENTH.—Every bottle is warranted to
give good satisfaction or your money will be re-
turned. This shows conclusively that the pro-
prietors have full confidence in this preparation,
and proves for the seventh time that G. E. S. B. is
the best liniment in the world for horses.
Sold by all druggists, and by
GOODALE & YOUNG, Dover, N. J.
