SATURDAY, APRIL 20, 1872.

LOCAL DEPARTMENT.

We learn that the Mt. Hope Brass Band will be in town to-day if the weather is propitious, and disconcerted sweet music is a most agreeable sound.

The Randolph Silver Cornet Band paid Dover a visit last Saturday evening, and delighted many of our citizens with its best selections of music. We saw by numerous posters that this band will give a concert at the Chester House, in Chester, on Saturday evening next, 27th inst., which will doubtless be well attended.

The Grand Division of the Sons of Temperance of this State will hold their quarterly meeting in this town next Wednesday morning at 10 o'clock, in McDevitt's Hall. It is expected that about two hundred members will be present, many of whom will partake of the hospitality of our citizens at their residences. In the evening a public meeting will be held, probably in Prospect St. Hall, at which prominent temperance advocates will be present and deliver addresses. Large delegations from the Rockaway, Chatham and other divisions will also be present.

We learn from Morrisstown that on Thursday a committee from the "Dover paper convention," recently convened there, waited upon the editor of the *Jerseyman* with a proposition to buy the *Jerseyman* establishment. Mr. Vance was disposed to argue the questions at issue, but as this did not come under the head of the committee's "instructions" he was given till next Tuesday to decide whether he will acknowledge defeat and surrender or fight it out "line upon line" if it takes all summer.

Today at one o'clock the sale of a limited number of building lots on the Phillips Farm, near the Catholic church, is to take place. But few are aware that this property contains the finest and most available water-power within the corporation limits, or that the citizens' committee have opened negotiations toward securing the same. Should they succeed in obtaining possession of it, the building lots will become valuable property, part from this the location is very desirable from the fact that it is about equal distances from the center of Dover, Port Oram, Trundle and Mine Hill, and close by the Catholic church and school, which were located, we believe, as near the center of the population of the Parish as was possible.

Varied are the experiences of matrimonial life, and here's one of 'em. A friend of ours commenced house-keeping last Monday, after several years experience in boarding, and of course is big with original ideas of domestic economy. He bought a steak the other evening, intending to have it for breakfast. In the morning he was "around" and like a good and obedient husband busied himself in building the fire. This was a new experience, and was coupled with the idea of everything of a combustible nature within reach, and soon the stove fairly roared with delight at the liberality of its owner, who, in the exuberance of his spirits had consigned the steak to the flames and the delicious odor thereof, now wending its way upward greeted the nostrils of his better-half, who blessed her stars that she had such a husband—a man of such varied accomplishments—one that could cook his own steak, in fact get his own breakfast—what a love of a man—how happy in such a possession—when suddenly the reverie is broken by an unmistakable voice asking for information in regard to the steak of the previous evening. It was not "hot up" in a bag, neither did it lie around loose on the shelf, like the milk sought for in the small hours of the night by the belated individual who was thick of speech; but alas! this steak was a mistake, for it was taken from the table and given to the devouring flames, which had licked the sweet juices; lapped its tongue around the quivering flesh, and when the dear man was discovered peering in upon the coals, it was unmistakably apparent that the smoke of the morning sacrifice had ascended to his torment—at least for some days to come.

A *Danier* correspondent in German Valley under date of April 18, says: "We are having plenty of railroad surveys through our Valley this spring. The Packer Company have run and located a road, and the Taylor Company commenced at Chester and High Bridge, and to-night they come together at our place. This looks as if we would have a road through our beautiful Valley soon."

Parties have also been prospecting for ore through the Valley, and have been successful, as they have leased considerable land for mining purposes. A large lead of hematite ore has been found, and there are good indications of magnetite ore. If we get this railroad, and the mines should be profitable, and be worked with vigor, the lumbering beauty of the Valley will be started into wakefulness by the busy hum of industry, and its picturesque places dotted with the villages of happy and prosperous workmen.

We buried this day, Gessie, daughter of Dr. D. G. Willet. She died on Monday, of consumption, aged 38 years.

The Washington Iron and Manufacturing Company of Warren county, which was chartered by the late legislature, intend commencing operations this week. The capital stock, \$200,000, with power to increase to \$300,000, is nearly all subscribed by resident capitalists. If the iron interest of New Jersey keeps on increasing at its present rate, Pennsylvania will have to look to her laurels.

Jas. B. Titman, of Sparta, has been appointed Commissioner of Deeds.

The In-trick-acies of the Law.

A suit under the landlord and tenant act was commenced last August before Justice Gage of this city by Mr. Henry Duffy, of Trundle, for the possession of a tenement house belonging to him in the latter place.

The house was formerly owned by John Wallace, Duffy's brother-in-law, who died the property to Duffy. Wallace died and left his wife in possession of the premises. Mrs. Wallace was the second wife of the deceased, and therefore had no claim to the property by the ties of relationship to Duffy, or by law. Duffy was anxious for the possession of the property for repair, as it was fast going to decay. Unfortunately, Mr. Duffy in the kindness of his heart, had allowed Mr. Wallace and his second wife to retain the premises without rent during the lifetime of Wallace, thereby depriving himself of the privileges of a landlord. By legal counsel Duffy commenced suit as above and the case was tried in September. E. M. White, for plaintiff, W. T. Leport, Esq., for defendant.

At the trial it being shown that no tenancy having existed, the parties having occupied the premises upon sufferage, the case was dismissed, which left Duffy in the peculiar position of owner, yet no right to take possession.

Subsequently Mrs. Wallace having agreed with Justice Gage that if no further proceedings were had against her, and if she could be allowed time to get her vegetables from the garden, she would yield peaceful possession of the premises to Duffy on the 1st of November following which was agreed to by Duffy. In the meantime Mrs. Wallace had changed her mind, being probably influenced by her friends, so-called, and still retained and refused to give up possession of the premises as she had agreed to. However, about the 1st of December, seemingly desirous to stand by her agreement, she removed the most of her furniture and all her garden truck, but left a few dilapidated articles of furniture in the house, and left it with the door standing open. Mr. Duffy, anxious to repair, on the 18th of March last took possession of the house and proceeded to repair the same, no opposition being made thereto.

Now comes the tug of war. Suddenly and without warning, a writ was issued by Justice A. Drake against Duffy for forcible entry and detainer, and served upon said Duffy by the Sheriff of Morris county. This is an expensive process. A precept was also issued compelling the sheriff to cause to come before the said Justice Drake on the 20th of March last, twelve good and lawful men of the county, being citizens of this State, to try the said forcible or unlawful detainer.

At the appointed time the Court was opened at the hotel of Jeremiah Baker, at Drakeville, M. L. Keefe, Esq., appearing for plaintiff and E. M. White, Esq., for defendant.

Everything being in readiness, counsel for plaintiff asked for an adjournment because of the non-appearance of his client, she being unfortunately delayed because of the bad state of the roads, which was granted and an adjournment had to the 12th day of April at the same time and place.

Pursuant to adjournment the parties appeared and the fight went bravely on. Mr. Keefe having called to his aid Wm. M. McNeely, Esq., as associate counsel, and the jury having been duly empaneled and sworn, A. J. Riggs, Esq., for the plaintiff, made an elaborate argument from Mr. Keefe. Witnesses were sworn. The prosecution evidently showing a disposition to keep the most important evidence from the jury, much discussion of an undigested character was allowed, the Justice "leaping" much, in his rulings, toward the prosecution. For instance, the evidence of Mr. Gage, showing that Mrs. Wallace promised to vacate the premises and acknowledging that she had no right to the premises in question, was not allowed by Justice Drake, and Mr. White was forced to tell the jury what he wanted to prove but could not because of the alleged unfairness of the Justice.

The case commenced at 10 A. M. and the summing up of counsel, which occupied an hour and a half, concluded at 6 P. M., when the jury retired to make their verdict. About ten o'clock a call was made for Justice Drake, and on the question being put in the usual form; if they had agreed upon a verdict, the answer was returned that they had agreed to disagree. The Justice replied that he would keep the jury there till daylight rather than dismiss them without a verdict. The jury did not seem to agree with the Justice any more than they did among themselves, and therefore took their departure. Thus ends, for the present at least, the only case of forcible entry and detainer that has been tried in this county for some years.

At the annual meeting of the legal voters of Mine Hill School District, No. 2, on Tuesday evening last, the following resolutions were offered and unanimously adopted:

1st. That a District tax of two thousand dollars be voted for the purpose of paying certain debts previously submitted and approved by said district, and of further improving the condition of the school house by putting in new floors, and also new and improved desks and seats.

2d. That the Trustees be authorized to borrow the amount voted for, at the legal rate of interest, on the credit of the district until the said tax should be assessed and collected.

The utmost good feeling prevailed, and all present manifested an interest in the welfare of the school, which is highly commendable. Remarks were made by several gentlemen, in which all urged that the exhibition which is to be given by the scholars on Wednesday evening, April 24th, should be generously patronized; so the proceeds arising from a small admission fee is to be expended in the purchase of a bell for the school house.

Common Council Proceedings.

The regular monthly meeting of the Dover Common Council was held at their rooms last Monday evening.

Present: Mayor Segur, Aldermen Lindale and Talcott, and Councilmen Dickerson, Stickle, Whitlock and McDevitt.

Minutes of meeting held Feb 19th, read and approved.

FINANCE COMMITTEE.

The following bills were referred to the Finance Committee:

Chas. Williams, \$8.25.

John G. Mase, \$89.50.

Chas. A. Gillon, \$210.00.

The bill of John G. Mase, \$89.50, and two bills of Job L. Lawrence, of \$87.50 and \$162.75 were reported upon favorably. On motion ordered paid.

The bill of J. D. King of \$27.87 for moving tones was reported upon favorably, with the recommendation that it be paid and charged to Job L. Lawrence, and it was so ordered by the Council.

The bills of J. A. Goodale of \$94.75 and Geo. McCracken, of \$21.18 were reported without recommendation and they were laid on the table.

RESOLUTIONS.

The following resolutions were then adopted:

Resolved, That the sum of \$249.00 be appropriated for the purpose of opening that portion of the new road lying within the corporate limits leading from the foot of Blackwell street to Dickerson's bridge, and that the town Treasurer be authorized and directed to pay said sum on order signed by John Hancock.

A resolution that the Common Police be directed to provide a suitable building sufficiently removed from any dwellings to prevent danger from contagion, for a small-pox hospital, to which any case of that disease which may appear in the corporate limits may be removed, was on motion ordered to lie on the table.

ORDINANCE.

An ordinance for the election of members of the Common Council was passed. It will be found in another column of the Era.

LICENSES.

The following petitions for licenses being reported upon favorably were granted, the Mayor being by a vote of the Council exempted from voting:

James H. Burchell, beer saloon.

Ayes—Councilmen Dickerson, Stickle, Whitlock and McDevitt.

Nays—Aldermen Lindale and Talcott.

Henry Stanton, beer saloon.

Licenses granted by the same vote as above.

Geo. A. Blanchard, hotel.

Ayes—Aldermen Talcott, Councilmen Dickerson, Stickle, Whitlock and McDevitt.

Aldermen Lindale was excused from voting.

On motion the Street Committee was appointed to treat with the property owners on Morris street for the purchase, by the corporation of the land to be taken for contemplated improvement to be made on said street, as shown on the maps of the same.

On motion the Council adjourned to meet on Friday evening, April 19th, at 8 o'clock.

Dover District School Meeting.

The annual meeting of the legal voters of School District, No. 1 was held in the public school building on Tuesday night. The meeting was called to order by the District Clerk and Isaac W. Searing elected Chairman. Dr. J. W. Coudlet, District clerk acted as Secretary.

Minutes of last annual meeting read and approved.

The Secretary read the call published last week, and then proceeded to explain the object of the meeting.

The following sums were voted to be raised by special tax on the property of the district during the present year:

To meet the expenses of the school for the year ending in April, 1873, \$3,200.

This sum is estimated to be sufficient to meet all current expenses for this year indicated, without using any of the money that will be due from the State on appropriations for the year 1872, and which will be due the district in January or February, 1873.

To pay interest on \$4,500, mortgaged indebtedness of the district, the sum of \$1,000, a part of which, \$655, to be expended by the trustees for gravelling and keeping the grounds and building in order.

The sum of \$270 to E. P. Amador, for architectural design of school building.

The trustees were authorized to borrow on promissory note \$1,400, to discharge present indebtedness, due on building etc.

Beulah's legs credited with from thirty to one hundred cases of small-pox, and from four to twenty deaths, when the fact is, they have only ten cases of small-pox and seventeen cases of varicella. There have been but two deaths thus far, and all the rest are convalescing, with perhaps but two exceptions—an old man of seventy and an infant—these last cases having developed in four or five days past. Seven cases of varioloid have already recovered, the houses and clothing being disinfected and the patients set free. The disease is now entirely confined to a small district north-east of the Presbyterian church, the district where it originated, and there it will be kept by the vigilant authorities. At least 2000 persons have been vaccinated in Broomfield during the last two weeks.

A man from Broomfield, a pedlar, made his appearance at Mine Hill a few days ago, and soon as the people learned of his presence the man was forced to leave in a hurry.

A few days ago a man who had just left the presence of his son at Broomfield, who was then lying ill with small-pox, made a visit to Morrisstown and went into a number of stores there and also did some legal business. The citizens are now awaiting "developments."
