OF EACH WEEK.

ordered by the owners, and prompt remittances made. Reasonable commissions charged for all sales.

—

We have on hand a large stock of

DRY GOODS

AND

FANCY GOODS,

Which will be sold for less than the same would cost at wholesale in the city of New York.

Noting that there is more money made in

I dropped this rule, viz: never to buy an article for
 less in our auction room than we are satisfied
 to sell it for again at a large per-
 centage, less than the same can be bought in the
 regular way of trade.

We intend opening a Stock Sale
 every Saturday Afternoon,
 Commencing May 4th, at 3 o'clock.

We have small stables room for horses and yard
 room for cattle, carriage, &c. We are satisfied
 connected with that branch of the business.

Persons wishing to purchase, and those wish-
 ing to sell, are requested to call at any time *as above*
 will keep a book especially for the purpose of
 entering the names of all persons wishing to pur-
 chase, and those wishing to sell, and will be

Auctioneering attended in and out of town.
 Bills printed, clerking attended to and collections
 made.

THAS. A. GILLEN. A. JUDSON COE.
 Dover, April 27, 1872. 19

THE IRON ERA.

SATURDAY, MAY 18, 1872.

LOCAL DEPARTMENT.

The ladies of the M. E. Church in this town will commence preparations shortly for holding a strawberry and ice cream festival. Due notice will be given.

Mr. John Armitage, of this town, is the agent for the above line from the kilns of John Usher. Orders taken and money collected for the same.

About the 1st of June the train leaving this place for New York at 6.45 A. M. will leave at 6.50 instead. By not stopping at the Summit and not having the West Line R. R. trains attached the train will make better time. Probably other arrangements of which we are not now aware will be made at that time.

Very extensive fires have prevailed in the mountains north of this place for some days, burning over several hundred acres of timber and sprouts, and reaching along the Green Pond country towards New Foundland, giving rise to a report that the large hotel of John P. Brown at that place had been destroyed. The fire was extinguished in some places with great effort, and risk of life.

The business of manufacturing the Bettley paving blocks, for the New Jersey Wood Paving Co., has attained such proportions that quite a large number of men are finding employment in various capacities in the upper part of the county. The steam saw and turning mills at Woodport employ about 25 men, and altogether about sixty. Nine thousand blocks per day are turned out, mostly from chestnut timber, a small number being made from rock oak. The manufacturers, R. Herr & Co., are now furnishing blocks for Elizabeth City, and in another column advertise for an additional number of workmen.

E. Hairhouse & Bro., have just finished the exterior improvements of their building, on the corner opposite the Mansion House, and are now engaged on the interior of their jewelry store. Since the burglars' attempt on their Blackwell street store the latter has been given up, and the two combined in the Sussex street store, where a new, larger and finer stock of goods in their line may be seen. This is a sign of business progress in our town that cannot be otherwise than pleasing to those who watch the growth of the place.

Mrs. H. G. Dennison, Agent of the National Lightning Rod Company is in town doing some very fine work upon our best dwelling houses. The reputation of the Cable Rod is well known as being the most perfect conductor now in use. It is a continuous rod, (not a jointed one,) and is therefore superior in many respects. They have been placed upon the dwellings of Geo. Richards, Esq., Rev. Mr. Butler, and P. W. Froese, and present a fine appearance. Mrs. Dennison thoroughly understands his business, is a gentleman, and all who do business with him will be gratified with his manner of conducting it. We wish him every success, for he represents, in our opinion, a reliable house, and his conductor is superior to any we have ever seen.

On Monday evening last, Alexander Dickerson, Esq., for many years a Justice of the peace in Marlborough, died in Berkshire Valley, in the 72d year of his age. About 30 years ago Mr. Dickerson was in the employment of the celebrated inventor, Seth Boyden, and while in his shop he acquired a small fortune in an old building in Washington street near the canal bridge, Newark, and there turned out the first bloom of iron over steam-powered with anthracite coal. He was offered \$100,000 for his invention at that time but refused it, believing it to be worth much more, but through the various complications that usually arise in such matters when of a value that character he received but \$10,000. He afterwards became interested in gold mining operations near Yorkville, South Carolina, but was obliged to suspend operations there through the troubles which were soon followed by the breaking out of the late war. In the early part of his life he was largely interested in the iron business in this section of the county, and did much to develop it. After a life of varied fortune he died on the bank spot where more than fifty years ago he commenced his married life. He belonged to one of the oldest and most numerous families in this county, was a man of powerful build, of more than usual intelligence and of excellent judgment. Rev. G. S. Galt preached the funeral discourse to quite a large audience, and the remains were interred in the old burial ground of the Berkshire Valley Church.

A singular looking individual, apparently about forty years of age, but with an extended knowledge of the ways of this world that he had become perfectly initiated for any other, invaded the premises of a civil magistrate not a thousand miles from here, in company with a man who is "always on a beat"—a policeman. Upon taking a seat he displayed the worst looking hat we ever saw and hung it on his knee, the bare part of which protruded through the crown. He next essayed to rest his feet on the green baize of the justice's table who issued his order for the stranger to leave the room, which elicited from the stranger the remark that he considered himself a tramp, and was playing the game that way. The justice thought that more than likely the man was a tramp, and immediately proposed to "lead" him in that light. The latter then asked permission to place his feet on the table, and being told that if he had anything to say the court would willingly listen for a few minutes, he proceeded to assault upon the situation. In chase language he commenced by saying that he had had a little opportunity to watch the new-born spring; the buds bursting into life had disclosed the freshness and beauty of "unfaded nature, though beset by a hard frost and brown exterior, and then stated that this was "just his case exactly." If the square would only look at it in that way, but the square wouldn't, and opening a book containing the names of those "that had gone before," he asked the stranger's nativity.

"Do you want to know where I'm from, Squire," was the interrogation.
"Yes," said the Justice, "I want your name and State."
"Well, I'm from Pennsylvania, and in a state of abject poverty, just now," Squire, he added.

After much difficulty the following answer was elicited:
"I am, Squire, a New Yorker by birth, a Pennsylvanian by adoption and a Jerseyman by the force of circumstances, and if you'll let me off this time, Squire, I won't be a Jerseyman any longer than to-night."

With the latter appeal the good-hearted justice told him he might go if he would keep his promise, and with many apologies for his appearance the man walked away remarking that "it was a great pity a fellow couldn't go to New York unless some kind of an effort was made to exact toll for crossing the little State of Jersey."

In relation to the Dover Car Shops the Board of Education says: The authorities of the Central & Delaware Lackawanna & Western R. R. have visited Dover on an exploring search for a suitable location for new and immense car and locomotive repairing shops. Since the consolidation of these roads it has been agreed to build a consolidation shop of mammoth proportions, where repairs of both companies could be done. The consolidation already have large shops at Scranton, and smaller ones at Philadelphia and Elizabeth, both of which are on the latter of which would probably be discarded for the new shop. The grounds here offer good advantages, but Elizabeth is understood to be much approved of, being situated on the Boston Branch, while it is close to the meadows and but a few miles from Communi-paw, has the further advantage of being almost exclusively owned by the D. & W. Co. and its officers, and they thus can control a large tract of land to erect their buildings, tracks, etc. East Newark is also mentioned. There is little hope, however, that the consolidation may rear at Dover the finest shops in this State, which could not fall to be of advantage to the town.

The Morristown charter election took place last Monday resulting in the election of four out of the five democratic candidates, which will leave a Republican majority of one in the Board. Geo. W. Hall, Mayor, 123 maj.; Wm. C. Casky, Alderman, 20; Miss Norris, James Anderson and Ischael Searling, Councilmen, Mr. Searling being defeated by Ed. E. Pearson, Rep., by 13 maj.

The outgoing members of the Common Council are Mayor S. H. Halsey, Alderman Richard Spoor, and Councilmen Wm. J. Sayre, H. O. Canfield and Geo. H. Howe.

The members of Watson's Tribe No. 25, O. M. of this town, are expected to meet at their regular on Monday evening next in full force, as business of importance will come before the Tribe.

The plans for a new Catholic Church in Morristown having been fully prepared, and contracts for the building given out, a short description of the proposed edifice will be found interesting. The site is on the corner of Maple avenue and Madison street, and adjoining the present church. The dimensions of the building are as follows: length 122 feet, width, 54 feet. It is to be constructed of the best red brick, of human size and laid in English bond, with brown stone. The front will face on Maple avenue, standing about 25 feet from the street, and will extend about the height of the present residence, a sacristy which projects still further on the right hand side being joined to the residence. The appearance in front will be very handsome, the church rising to a sharp point, ornamented with a fine stone arch, and a lower portion on the left hand corner. The lower reaches an elevation of 175 feet, being capped with a spire. It is 14 feet square on the base, and is also of brick with stone below. Within will be a bell. The church proper has two side aisles or wings, the outer edge of the roof of which is 50 feet from the ground, and a height of 6 feet between the upper side of the roof of these wings and the lower edge of the main roof. The roof will be covered with slate in ornamental colored bands. On each side there are several handsome stained glass windows, while the roof is to be magnificent with rows of stained glass representing scenes from the New Testament.

Inside the building is to be furnished with yellow pine, oiled, handsome carved roof pillars of the same wood supporting the roof. There will be three aisles and nave capable of seating 950 persons, besides extensive bench room. A gallery for the organ and choir is over the entrance. At the rear there are three altars, with confessionals and the sacristy. The whole will be heated by two large furnaces. It will cost \$25,000, exclusive of gas, water and heating fixtures.—Morris Herald.

During the last Legislature a charter to build a new railroad from Highbridge, on the Central Railroad, to Chester on the Chester branch of the Morris and Essex, was obtained and has fallen into the hands of the Delaware, Lackawanna and Western Rail and the Central Railroad combination, otherwise known as the Grand Central Railroad. Surveyors were at once put to work and three lines have been located, two of which are by the way of Hackle Run, and one through Gorman Valley, the last being the longest but by far the easiest route. The particular line is to be selected next week when the work will at once begin. The road will be of about thirteen miles in length and is needed to carry to the feet increasing iron ore traffic of Chester and its neighborhood, and to afford opportunity of delivering that ore at the Taylor Iron Works at Highbridge, thus permitting those furnaces, and others which are to be at once built in that neighborhood, to use the Chester ore without bringing it to them by way of Philadelphia as theretofore.

The County Board of Freeholders were in session last week. The Committee on Soldiers' Monument reported that its total cost was \$14,311.91. The Poor House has 168 inmates. The county supports 23 lunatics at Trenton, at an expense of \$5,491. The amount of county tax to be raised this year was fixed at \$85,000. A bridge near John P. Brown's at New Foundland between Morris and Passaic counties being in a dangerous condition, a committee of the Freeholders of Jefferson, Rockaway and Randolph, to confer with Freeholders from Passaic was appointed. The next meeting was fixed for Tuesday, August 2d.

Morris County Courts. The Grand Jury came into Court May 16th, with eleven bills of indictment. They failed to find an indictment against Thos. Foley for the killing of Dulaney, at Hardtown, and Foley was therefore not free from jail where he has been confined since the affair. Jacob Blackhead, keeping disorderly house, pleaded guilty; same, selling liquor on Sunday, was pleaded guilty. Frank Crooks, grand larceny, plea not guilty. John McNeil, assault and battery, plea not guilty. Afterwards McNeil pleaded guilty. Nelson Blakeman (colored) assault, plea not guilty. Charles Wilson, Morristown, assault and battery, pleaded guilty and was sentenced to pay fine of \$1 and costs. Several remain yet to be tried.

David Philmore, administrator vs. Adoniram Court, action of replein, judgment for plaintiff, 6 cents.
Kenny Kelly vs. Joseph K. Osborn, suit for board, judgment for plaintiff \$120.71.
John Hinchman vs. Cook & Lytle. Suit upon appeal bond. Defence was payment according to stipulation. Decision reserved.
Wm. H. Hamilton vs. Roger P. Martin. Suit for work done. Judgment for plaintiff \$132.63.
Alexander Elliott vs. Jacob H. Komerer. Suit on note. Judgment for plaintiff \$124.26.
Mashon H. Dickerson, a petit juror, having failed to appear, the court ordered a rule to show cause why a fine should not be imposed on him.
Dennis M. Duffy vs. Jacob H. Sherman. Suit on note. Case on.

In the application of M. Stanford for license to keep a tavern at Madison, the court still reserves its decision. The question arising in this case is the constitutionality of the Chatham Local Option Law.
Cases on appeal were set down to Tuesday, May 21st, at 10 A. M. No court was held on Tuesday last, and on Wednesday adjourned at one o'clock to Thursday at 10 o'clock.
In the case of Grider the Court granted a rule to show why a new trial should be granted. The rule will be argued at the next term of the Supreme Court.

FROM SUCCURRANA.

On Saturday evening last a meeting was held at the school house in response to a notice given some days previous by the Trustees, at which the parties interested turned out in mass. The object of the meeting, as set forth in the notice, was to raise the necessary funds for re-seating the school house, which was thought to be greatly needed. After an organization was effected, a good deal of time and talent was expended in bringing the momentous subject before the body in a digestible form.
After an elaborate exposition of the state of affairs relating to the matter by the sheriff, the square moved an adjournment sine die, which was carried, and directly succeeded by another motion from the same quarter to rescind the former, also carried. Business was again resumed, interspersed with legal lore, just recollections of which might and might have been, duties of Trustees, merits of teachers, inimitable scholars, etc. A motion followed to raise money by taxation, and was lost. A proposition was then submitted to dispose of the school house and grounds, and not entertained.
A motion next prevailed to place some unpaid bills in the hands of J. C. Duck Egg, for collection, due prior to September last, for tuition.
After which, on motion, the meeting adjourned.

The Emanuel Lodge of Good Templars located at this place is now in the 4th year of its existence, during which time it has experienced many changes, and several times has been deemed to undergo a severe struggle to keep itself above the surface. But it has successfully withstood the storm, and now to all appearances is one of the established institutions of our village and commands itself to all lovers of temperance, and the principles upon which the order is founded, Faith, Hope and Charity.

Emanuel Lodge, though feeble, as compared to the great majority of lodges in our State, has accomplished a great deal of good and is constantly working to better benefits among the people, notwithstanding which it has some bitter enemies among those who claim to advocate temperance principles, their prejudice no doubt arising from the mistaken notion that Good Templars meet in secret sessions only to plot and plan discord and treachery in the community. I would say to those who entertain an unfavorable opinion regarding the order of Good Templars, or any particular lodge, that the order is purely a social and fraternal one, and that all of its purposes and aims must be confined to this sphere, nor does it adopt any unlawful or dishonorable means to accomplish its designs.

The Lodge has occupied the upper portion of the school building here, through the generosity of the citizens of this village, and among them it has experienced, in the wanton destruction of its furniture and property by the older male scholars while attending school, who were not properly restrained by the teacher in charge. The last and meanest act and one in which the parties were detected, was the prying open of one of the shutters of the window opening into the stair way, through which two boys entered the room above, and succeeded in breaking a rather complicated brass padlock on the secretary's desk, leaving the private records, books, and papers exposed to the inspection of any one who might choose to enter the building. The boys escaped arrest, only through the charity of the Lodge.

The following is the list of officers for the present term, ending Aug. 1st:—W. C. T. Jenclo Doering; W. V. T. Honietta Peppard; W. S. J. H. Kears; W. F. S. James Doland; W. T. John Harris; W. M. John H. Doering; W. L. G. John Torrell; W. O. G. John Doering; W. H. D. L. White; W. L. S. Mary Thomas; G. W. C. T. F. M. Duck.

The election of Chaplain was postponed in favor of Rev. J. H. Runyon, who expected to join the Lodge soon, by card.

Report of the Morris Canal and Banking Company, for the year ending December 31, 1871.

SPRING
REMOVAL!
G. B. BORIOTTI
Has removed his
Boot and Shoe Store
From next to Goodale & Vought's Drug Store, to a larger and more convenient place of business, formerly occupied by Horton & Houghton, in Munson's building,
8 DOORS ABOVE BROWN'S NEW BANK,
In Blackwell Street,
Where he will employ greater facilities in his business. A splendid
New Stock of Goods,
For spring and summer wear, has just been received, and among other improvements attention is called to the "Horton Boots," with the new latest Mastic Bottom, Holy Protector. They never tear through, or become ragged by wear.
Also, Ladies' Serge and Cloth
Ventilating Water-proof Boots and Shoes.
Custom Work.
For a handsome, well-fitting and stylish boot or shoe, I flatter myself that I cannot be excelled by any establishment in the country. I ask but one trial to establish your patronage with me. Prices moderate.
Repairing
done neatly and substantially.
Thankful for past patronage, I hope by my efforts to please, to merit a continuance of the same.
G. B. BORIOTTI.

THE DOMESTIC
SEWING MACHINE

Is the Best of all.
PARTIES desiring to purchase SEWING MACHINES will find it to their advantage to see and try the DOMESTIC before buying any other.
It runs easier and makes less noise than any other having a shuttle.
Uses linen thread or glass cotton. - Tensions are easily managed, being self-adjusting, not found in any other.
Cannot be put out of time - has no cam or gear wheels.
Cannot miss stitches - runs as close - and peculiar motion of needle bar less liable to break needles because it has round shuttle.
Does not break threads, because of superior tensions - is less liable to get out of order - less than any other machine of the kind.
These excellent machines are given out on trial and thorough instruction free.
Any person having one of these machines and becoming dissatisfied therewith, can exchange, free of charge, for any other manufacturer.
Take no dealer's word that they are not the best until you have tried one.

The Imported Stallion,
French Chief!
For the convenience of Farmers and lovers of good stock, French Chief will stand for March this season at the following named places:
AT STABLES OF C. M. TUNNIS, DOVER,
On Monday and Tuesday of each week.
AT TAYLOR'S HOTEL, MENDHAM,
On Tuesdays and Wednesdays.
AT M. B. ROBIN'S HOTEL, FLANDERS,
On Thursdays, and
AT DeCamp's Hotel, MCCAINSVILLE,
On Fridays.
Description and Pedigree.
FRENCH CHIEF is a dark bay or brown color, black legs, mane and tail, sixteen and one-half hands high, and will be seven years old the 1st day of June next. He was sired by England's Glory, great-grandson of old Sampson, and was imported to this country by J. Middleton, of Ohio, in 1871, and weighs between fifteen and sixteen hundred pounds. He is called by the best judges for style and durability, the best horse ever imported to this country.
Conditions.
First. - All Mares with foal, twenty-five dollars. Second. - All Mares parted with will be considered with foal.
Third. - All moneys due eight months after time of service.
The season commences the 22nd of April.
BISHOP EVANS,
Dover, New Jersey. Proprietor.
Seven Reasons Why
GLASS
FOR HORSES.
WILL CURE RHEUMATISM, SPRAINS, SWELLINGS, BRUISES, GALLS, BRUISES, AND LAMENESS OF ALL KINDS.
FIRST. - It is composed of the most powerful and penetrating liquids known in chemistry.
SECOND. - Combined with the above is a Mineral Oil, made expressly for this purpose, and mixed by an entirely new process.
THIRD. - The use of the powerful and penetrating ingredients is to drive or force in the best Medical Oil, which lubricates the joints and sinews and immediately drives the disease and compels it to loosen its deadly and poisonous fangs.
FOURTH. - This Medical Oil is used for the same reason that a good mechanic always uses oil to make his machinery work with ease and precision. So in the same way, the application of our animal oil is to lubricate the joints of our animals so that they will be able to move with ease and precision.
FIFTH. - It is very powerful in its action, will not burn or blister the animal like most of the "red hot" liniments of the day.
SIXTH. - Not one drop of tincture of cayenne or red pepper can be found in its composition; for we hold that no liniment can be effective which burns and blisters the animal until the muscles are torn and dried up to the bone.
SEVENTH. - Every bottle is warranted to give good satisfaction or your money will be refunded. This shows conclusively that the proprietors have full confidence in this preparation, and proves for the seventh time that G. E. S. S. is the best liniment in the world for horses. Sold by all Druggists, and by
