"Nuts for Bullionists to Crack."

Under the above epistle the following is sent to you, which we believe of the points it contains, without any fog with the greenback theories of the writer.

The U. S. public debt was highest on July 1, 1866, being, \$2,783,425,870, and lowest on December

1, 1877, \$2,046,027,065.

Making a reduction in 11 1/2 years of \$773,398,814.

England's bulwark—her public debt, is funded at 3 per cent, and held at home, the circulating interest being in valuable in preventing "hard times."

America, richer (materially) than England, pays her Germany 6 and 7 per cent, for holding its public debt, and which partly explains the ruin of millions.

The greenback, or "new money," seek by substituting greenbacks for national bank notes, and funding said debt at home—in 3.65 per cent. Bonds—saving 50 millions in interest, and having other 60 millions circulating here instead of in Europe. To revive trade: Make labor in demand, waiting all parts of the country, and giving prosperity to a crushed people. Why this slavery to Europe? Will bullionists crack these nuts?

Crack them, Watson.

THE EASTERN WAR.—According to official returns the Russian losses in the fighting preceding the surrender were 10 officers and 182 men killed, 45 officers and 1,207 men wounded. The Turks lost 4,000 killed and wounded; the prisoners include 10 Russian, 128 of Turkish, 20,000 infantry, 1,200 cavalry. Seventy seven cannons were also captured. The Turks fought like lions, and the Russian, who surprised them unconditionally, was allowed to take his sword.

Sixty battalions attacked the Russians on Wednesday at Meteha, and were repulsed after seven hours fighting. The Turks say that 3,000 Russians were killed. The Russians have obtained a drug on footbath on the Balkan Peninsula. In Armenia the Russians are taking steps to sever communication between Erzerum and Trebizond.

General News.

California is experiencing a heavy rain storm.

A Georgia paper asks the State Legislature to pass a law making it an offense to give tobacco to minors.

The Pope has granted a dispensation authorizing the marriage of the King of Spain with the Princess Mercedes.

The Philadelphia Permanent Exhibition is in debt \$275,000. Its total receipts since May 10, have been \$107,600.

General Huerta, former Governor of Sonora, is said to be in Mexico with five thousand American filibusters preparing for an invasion.

The sum of \$444,082.13 was turned into the city treasury to New York Monday in settlement of "King" suits.

Money came from Sweeney and Woodward.

The laborers employed on the Lachine Canal, Canada, numbering about two thousand, struck on Monday.

They want one dollar in place of ninety cents a day.

The Virginia (New) Enterprise says:

"In the Consolidated Virginia office yesterday we saw \$600,000 worth of bricks, and outside a bogger. Both were types of Nevada—the latter the more common type."

William H. Camp, of Camp & Osborn, wholesale grocer, of Newark, who was arrested on Monday, is held in lieu of \$25,000 in bonds. Mr. Camp was struck by a train at the Centre railroad depot two weeks ago last Saturday night. He died on the following day.

Ninety bodies have been saved from the United States steamer Huron; of these the bodies of eight officers and seven men have been identified.

The Huron was wrecked on the coast of Newfoundland.

Most of the wreck is under water, and the whole star-board side ripped up. It is interesting to note that the Captain of the Huron, in Southern trade have lately found the westerly current unusually strong, and that during the past few years many merchantmen whose masters had had experience in the navigation of our Southern coast, have been wrecked near the place of the Huron disaster.

Postal Abuses.

We are indebted to A. D. Hazen, Third Assistant Postmaster-General, for a copy of his annual report, which, in addition to the facts and figures which we have already published, goes much more extensively into the details of the postal service.

CRISTS FROM OUR GRIN.

"Ethical malice," etc.

"Prose your Christmas tree."

Kisses bloom in December the year round.

The air is laden with warm kisses.

A burning shame—the firing of brass in this vicinity by troops.

On the "Hill Eagle of Sussex" near high enough to tackle the Sun?

Fired of waiting for the Boston post office, Garrison begins to pour on the Free Press.

The previous cold now writes to Santa Claus for a stuffed elephant or something else to amuse it.

With, forth and trembling we bid the time when "Whispering Christmas" will be in vogue.

We are happy to state that we were in error last week when we stated that Broadwell was not indicted.

A good field upon which the aspirants for the Presidency of the Senate may compromise their difference.

While this weather may be a nice nip for the poor it cannot be said to be an ice arrangement for the ice cutters.

Hadn't folks better stop paying for the millennium till such salvage as Morrissey and Peterson retire from office?

The Hacketts Greenback Club have organized for another term. Some people never do know when they are licked.

The fellow who never laughs should keep away from the President's entertainment.

The revolution of his nature might kill him.

The U. S. Senate is now full for the first time since the war.—Ex. We should judge it was full from the way it acted last Saturday.

A fifty-year old woman who stirred to death in St. Louis, was given a handsome funeral by her friends. Of course she appreciated it.

The sharp youngster who has an eye to business, next Christmas will find out who has been to him all these years about Santa Claus.

Mr. Ulen Canfield is a candidate for Common Pleas Judge of Warren County. Well, this season seems to be a fruitful one for the Canfield variety.

The Democratic of California have elected Jas. T. Farley U. S. Senator. Considering how Farley has come his colleagues will find out how he has done.

Occasionally we hear of a tramp who gets grounded in a barn he has set on fire with his pipe, but such instances are too infrequent for the public good.

It is not probable that the sympathy that generally exists for the small dog in a fight will long prevent Uncle Sam from giving Mexico a severe castigation.

McFadden consigned himself with the intention that the operators who have put up a job to make his fire coal less as much as possible will get all the fire they were free of cost after twelve.

The Porto of Turkey has issued a circular asking intervention, and saying that both countries have fought enough to satisfy their honor. Which is always the opinion of the bottom dog.

The House of Representatives has passed the bill to amend the national capital Congress the first time the wife of the Florida Senator is the husband woman in Washington, which is accounted for by the fact that she is a native of New Jersey.

People now begin to go back to the days of their fathers and place more confidence in the old-fashioned stock than in the new-fangled Trust Company, which has a religious foundation to its base.

When will the country press very that old phrase, "the sequel of the dying porter is heard in the land?" An individual public begins to think that this ancient proverb has acquired through the auction room enough.

The candidates for the county office to be filled by the people of Warren next fall are already announcing themselves by the dozen. It is not probable that the office will seek the man in that county for some time to come.

Two weeks ago Jones tacked on his kitchen door the following legend: "Tramps required to work one hour for each meal given them." He has received but one call since, and is disappointed from the visitor that he could not have been there.

Senators Conkling and Gordon called each other hard names in the U. S. Senate on Saturday, and to avoid a duel both sat out on Monday. It would appear that there is more of old than new in our national legislation.

A Georgia clergyman walks thirty miles each week to his appointment, besides walking to his house, to his barn, to his yard, for corn to feed his family. If that man's energy was combined with a modern theological education he might instead live on stork feed and take an occasional trip to Europe.

Annihilated again! We might have known from past experience that such would be the result of the attack of the "Baltimore Journal" on the "New York Journal." We know our enemy will be annihilated now that he has us down. Respect our weakness, dear brother, and behold the enormity of our offense. Let us behold the light of thy reconciled countenance, and we will freely admit that your character cannot be improved. In short, you keep quiet about us, dear friend, and all the tortures that can be inflicted by the inequities of our readers will not induce us to "poach" on you.

A Terrible Configuration.
