

# THE IRON ERA.

BENJ. H. VOIT, Editor and Proprietor.  
Saturday, Aug. 28, 1880.

## POLITICAL POINTS.

The campaign fight is now fairly opened in Dover.

Electors day comes earlier this year than usual.

Mr. W. H. L. Truden, Private Secretary to the President, has been in Dover the past week.

The Engine Company picnic last Saturday was very pleasant and well attended.

Eugene Griffin and wife, who is the daughter of Gen. W. S. Hancock, are stopping in Morristown.

The picnic of the ladies of St. Mary's Church last Saturday was largely attended and netted about \$250.

It is said that an engine and hose company, of Paterson, are making arrangements for a target excursion to Dover.

The family of Mayor Richard, of Dover, will represent the Fifth District on the Electoral ticket.

The Handolph Township Republican caucus, to elect five delegates to the Congressional Convention, was held in Miller's Opera House on Wednesday evening.

It is said that Hon. C. P. Ardel is a candidate for re-election to the Assembly from the First District.

Paradical as it may seem, there are lots of slippery voters who are unmanageable until they are "greased."

A score thrown in any given direction in this county would be liable to hit a possible candidate for State Senator.

The probability is that Hon. George O. Lathrop, of Middlebury, will be the Democratic nominee for Governor.

John M. Knight, Esq., of Stanhope, is said to be a candidate for the Democratic Assembly nomination in Sussex.

And now Hon. Nathaniel Niles, of Madison, is named for State Senator. Would his supporters be called Nihilists?

The Republican Congressional Convention of the Fourth District will be held at Fairbridge on the 30th of September.

Extensive arrangements are making for a Hancock and English political meeting at Budd's Lake this Saturday evening.

It is said that the Assemblymen John W. Griggs, of Dover, would not refuse the Republican Congressional nomination.

There are some Democrats who think that Senator Caldwell is the most likely man to keep his own seat next winter.

Ex-Congressman Hardenberg, of Hudson, says he will take the Democratic Congressional nomination if it is tendered him.

The Chester C. Bland Democrats are speaking about erecting a big Hickory pole to erect in honor of Hancock and English.

Out of consideration for the services of Brother Garrison, of Bethlehem, no Chester men have been named for John A. Van Orman has been elected to represent the Orange Republicans at the State Convention.

Another candidate for the Republican Assembly nomination is looking up in the person of Wm. W. Marsh, Esq., of Schooley's Mountain.

Warren county is the hottest place in the country for political pugilism. It is said that one can now be seen nearly every cross road.

An effort is being made to settle the difference between the two County Democrats by announcing Judge Wm. H. Morrow for Congress.

The Democrats of this district have called their Congressional Convention to meet in Lycoming Hall, Morristown, on Wednesday, Sept. 2nd.

Senator Geo. A. Hobart has been elected Chairman of the Republican State Committee. Hon. C. O. Cooper, of Boonton, is Assistant Chairman.

We don't want to demoralize the only Greenback Frolic in the county, so we would mention Dr. Hultzner, of Port Oram, for State Senator.

The latest names proposed for the Republican State Convention are those of Hon. R. D. Bailey, of Rockaway, and Dr. J. C. Ryerson, of Boonton.

While the Fox is not a partisan paper it will be found the most valuable one in the county in the way of keeping the people posted in local political news.

In New Jersey the Republicans want to take the Government, and they say "Fetterlik" and the Democrats say "Fetterlik" and the Democrats say "Fetterlik."

And now the news comes up from Boonton that Hon. G. C. Cooper is willing to be defeated again in the name of his party. This time for the Senate.

In this Congressional district, two years ago the plurality of Mr. Van Orman over Mr. Deane was 500, while Mr. Foster, the Greenback candidate, had 2,300 votes.

Hard claims who would never give a public meeting a passing word are now crying at the political chime. The result will be a very poor show.

It is rumored to hold that a certain Republican man, affecting to be a Democrat, has been the cause of the loss of the vote.

The Republicans of the State have decided to have a mass meeting of the Legislature. Let the Democrats do likewise and settle this question for the good of all people.

The Greenbackers of today should be ashamed of the Greenbackers of 1876. They should be ashamed of the Greenbackers of 1876.

Please consider with a little more care the loss of the vote. The loss of the vote is the loss of the vote.

The vote of the late Hon. Cooper of Chester county was a very poor show. The vote of the late Hon. Cooper of Chester county was a very poor show.

The vote of the late Hon. Cooper of Chester county was a very poor show. The vote of the late Hon. Cooper of Chester county was a very poor show.

# SUMMER ENJOYMENTS.

Rev. J. I. Morrow has been at Ocean Grove this week.

Mr. W. S. Collier is visiting his friends in Harrison County.

M. H. Dickerson, Esq., and family spent Monday last at Budd's Lake.

Mr. G. A. Monington and family, of Chester, have gone to Ocean Grove.

Mrs. Miner has returned from a visit of several weeks to Haverstraw, N. Y.

Mr. J. S. Baker and party, of Madison, spent last week at Lake Hopalong.

Misses Lizzie and Mattie Taylor are visiting friends in Orange County, N. Y.

Conductor J. H. George is off for a vacation of several weeks in the interior of New York.

Mr. O. L. Truden, Private Secretary to the President, has been in Dover the past week.

The Engine Company picnic last Saturday was very pleasant and well attended.

Eugene Griffin and wife, who is the daughter of Gen. W. S. Hancock, are stopping in Morristown.

# WEEKLY IRON REPORTS.

The Engineering and Mining Journal of last Saturday says:

Although some articles show but little business, the aggregate of trade in all the markets is very large.

There is a disposition on the part of many buyers to pay present prices, to believe in still higher ones. The month of August is usually a very quiet one, so that but little attention is paid to the present condition of the market.

There is a very large number of the Scotch furnace, with no indication of early resumption, will greatly check the flow of foreign iron upon this market, and consequently make higher prices less probable.

There is a strong desire on the part of large dealers and makers to price low, but they will not do so, unless they can get it.

It will be impossible to check them before they have attained a point that will encourage over-production both here and abroad, with the consequent bad effects.

There has been but a moderate business in American pig iron, but the demand for it is increasing, owing to the inability to get desirable brands. Good brands of No. 1 Foundry are very scarce.

The demand for No. 2 Foundry is increasing and likely to continue doing so, thereby bringing its price to No. 1 Foundry.

During the month of the year, a large number of rolling-mills will be closing, and the consumption of this grade of iron will be very much reduced. Now, however, they are all at work again, with plenty of orders, and are consuming very large quantities of iron.

It is said that about 20,000 tons of this iron will be wanted on the Atlantic coast, and that the market will be very tight.

On No. 2 Foundry iron is in its position the weakest of all the grades; but with high prices for No. 1 Foundry and No. 3, the consumption will naturally increase until it finds its proper level in the scale of prices.

We note sales of 2500 tons of No. 2 Foundry, at \$20.00 per ton, and 1000 tons of No. 3 Foundry, at \$21.00 per ton.

On No. 1 Foundry, at \$22.00 per ton, and 1000 tons of No. 2 Foundry, at \$21.00 per ton.

On No. 3 Foundry, at \$21.00 per ton, and 1000 tons of No. 4 Foundry, at \$20.00 per ton.

On No. 4 Foundry, at \$20.00 per ton, and 1000 tons of No. 5 Foundry, at \$19.00 per ton.

On No. 5 Foundry, at \$19.00 per ton, and 1000 tons of No. 6 Foundry, at \$18.00 per ton.

On No. 6 Foundry, at \$18.00 per ton, and 1000 tons of No. 7 Foundry, at \$17.00 per ton.

On No. 7 Foundry, at \$17.00 per ton, and 1000 tons of No. 8 Foundry, at \$16.00 per ton.

On No. 8 Foundry, at \$16.00 per ton, and 1000 tons of No. 9 Foundry, at \$15.00 per ton.

On No. 9 Foundry, at \$15.00 per ton, and 1000 tons of No. 10 Foundry, at \$14.00 per ton.

On No. 10 Foundry, at \$14.00 per ton, and 1000 tons of No. 11 Foundry, at \$13.00 per ton.

On No. 11 Foundry, at \$13.00 per ton, and 1000 tons of No. 12 Foundry, at \$12.00 per ton.

On No. 12 Foundry, at \$12.00 per ton, and 1000 tons of No. 13 Foundry, at \$11.00 per ton.

On No. 13 Foundry, at \$11.00 per ton, and 1000 tons of No. 14 Foundry, at \$10.00 per ton.

On No. 14 Foundry, at \$10.00 per ton, and 1000 tons of No. 15 Foundry, at \$9.00 per ton.

On No. 15 Foundry, at \$9.00 per ton, and 1000 tons of No. 16 Foundry, at \$8.00 per ton.

On No. 16 Foundry, at \$8.00 per ton, and 1000 tons of No. 17 Foundry, at \$7.00 per ton.

On No. 17 Foundry, at \$7.00 per ton, and 1000 tons of No. 18 Foundry, at \$6.00 per ton.

On No. 18 Foundry, at \$6.00 per ton, and 1000 tons of No. 19 Foundry, at \$5.00 per ton.

On No. 19 Foundry, at \$5.00 per ton, and 1000 tons of No. 20 Foundry, at \$4.00 per ton.

On No. 20 Foundry, at \$4.00 per ton, and 1000 tons of No. 21 Foundry, at \$3.00 per ton.

On No. 21 Foundry, at \$3.00 per ton, and 1000 tons of No. 22 Foundry, at \$2.00 per ton.

On No. 22 Foundry, at \$2.00 per ton, and 1000 tons of No. 23 Foundry, at \$1.00 per ton.

On No. 23 Foundry, at \$1.00 per ton, and 1000 tons of No. 24 Foundry, at \$0.50 per ton.

On No. 24 Foundry, at \$0.50 per ton, and 1000 tons of No. 25 Foundry, at \$0.25 per ton.

On No. 25 Foundry, at \$0.25 per ton, and 1000 tons of No. 26 Foundry, at \$0.10 per ton.

On No. 26 Foundry, at \$0.10 per ton, and 1000 tons of No. 27 Foundry, at \$0.05 per ton.

On No. 27 Foundry, at \$0.05 per ton, and 1000 tons of No. 28 Foundry, at \$0.02 per ton.

On No. 28 Foundry, at \$0.02 per ton, and 1000 tons of No. 29 Foundry, at \$0.01 per ton.

On No. 29 Foundry, at \$0.01 per ton, and 1000 tons of No. 30 Foundry, at \$0.00 per ton.

# Young People's Temple at Mt. Taber.

The Young People's Temple at Mt. Taber is to be erected at Mt. Taber by the Mt. Taber Library and Musical Union, a view of the front elevation of which is given on our first page, promises to be a valuable acquisition to the structures of that well-known resort.

The Mount Taber Library and Musical Union was organized two years ago, with the object of affording pure entertainment and social intercourse to the young people residing at Mount Taber, before and after Camp Meeting.

Since it is a particular aim of the Union to promote sociability and welcome strangers and assist them in their acquaintance, it is proposed in pursuance of this end to give musical and literary entertainments, lectures, socials, etc., anything, in fact, that will legitimately add to the attractions of life at Mount Taber.

To a limited extent these ends have already been attained, but for the purpose of affording facilities for their more perfect accomplishment, a committee was appointed to select a location, prepare a design, and to superintend the erection of a suitable building for the use of said society.

The site selected for this building is on Simpson Avenue, between the two rows of buildings, just back of the post office building (which is to be removed) new stands. It will be within a few steps of "the Circle," and will be built in chapel style, with stained glass windows, so that, when looking down the hill from this vicinity, the front of the building will present a very agreeable appearance, as well as the rear of the building to those approaching the grounds from the Railroad Station, for, with its veranda and the tasteful and attractive manner in which the end of the building will be finished, it will be most conspicuous and ornamental structure.

The building is to be a large hall, 80 ft. long by 40 ft. wide, divided by a sliding partition into two rooms. The front and main room, 40x80 ft., will generally afford for assemblies; the rear room, 20x40 ft., opening on a wide veranda, will afford a reading room and place of general resort for members of the Union, and for the use of the public.

The building is to be a large hall, 80 ft. long by 40 ft. wide, divided by a sliding partition into two rooms. The front and main room, 40x80 ft., will generally afford for assemblies; the rear room, 20x40 ft., opening on a wide veranda, will afford a reading room and place of general resort for members of the Union, and for the use of the public.
