

Kids Homework Help

<http://www.bjpinchbeck.com/> BJ Pinchbeck says: "I'm BJ. My friends call me Beege. I just turned 15 on March 16th. My site contains over 700 links to sites that will help you with your homework." Basically, this is a gigantic list of links, organized by subject, with brief annotations.

<http://www.kidinfo.com/> This site gives students, young children, parents and teachers lots of links for information about many different topics. Students can get help with homework and research projects about American History, Science, Health and much more. There are also general reference links to atlases, dictionaries, encyclopedias, etc.

Homework help resources

Writing, Grammar Punctuation

<http://writing.wisc.edu/Handbook/GramPunct.html> Are you confused about apostrophes? Do semi-colons and commas sometimes baffle you? The University of Wisconsin Writing Center can help you with these rules as well as provide overall advice on how to turn in a paper which reflects your very best work.

Math

<http://www.numbernut.com> Numbers & counting, arithmetic, fractions, decimals, pre-algebra

<http://math2.org/> This site has tables for just about all your math needs, including addition and multiplication tables in the General Math tables, polynomials and exponents in the Algebra tables, and areas and volumes in the Geometry tables. There are also tables for trigonometry, statistics, and calculus.

<http://www.aaamath.com/> This site has hundreds of pages on basic math skills, with interactive practice activities associated with each of the concepts. You can browse the site's contents by grade level or by math topic, or you can look through the Index of Exercises.

Science

<http://extension.illinois.edu/gpe/index.cfm> Plant Life in Spanish & English

<http://animaldiversity.org/> Animal Diversity Web

<https://www.fws.gov/species/> U.S. Fish & Wildlife Service Species including threatened & endangered species

<http://www.girlstart.org/> At Girlstart (formerly SmartGrrls) you can find a collection of fun math and science resources and activities for girls, along with information about careers in the sciences.
